

A Good Place to Grow

What we did

We visited your school or club this summer and ran activities with you. We used art, Lego, storytelling and games together. You told us your views on a child friendly city and what is important to you.

What you told us.

Safety and Security

You told us so much about what is important in your life. This was your family, friendships, learning and having fun.

Environment and Play

It gave us lots of ideas and things to consider to make Salford a good place to grow up and live in.

Community and Belonging

You told us these 4 things were the most important and what we should focus on.

Health, Wellbeing and Equality

Because they are important to you, we will try to make changes in these places.

What's next?

We have taken everything you said, drew, built and shared and put it altogether. This report goes to Salford City Council.

If you ever want to read this, you can! Just ask :)

With your help, Salford City Council will use your ideas. These ideas will help make Salford better.

Over the next few years, we hope that you will see those changes being made.

You should be proud of yourselves for being such an important part of this work.

Thank you for your time, imagination and creativity!!
